

DISHA JAIN

JEWELLERY CAD DESIGNER • CAD FACULTY • TECHNICAL CONSULTANT

Bangalore, India | 7020460962 | solankidisha123@gmail.com

PROFESSIONAL SUMMARY

Jewellery CAD Designer and CAD Faculty with **3.5 years of experience** in jewellery design, 3D modelling, rendering, production support, and technical consultation. Skilled in **Rhino, Matrix 9, and MatrixGold**, with experience developing jewellery models from sketches, concepts, specifications, and product requirements.

Experienced in jewellery design interpretation, CAD development, rendering, production-oriented workflows, and design research. Hands-on exposure to **AI-assisted 3D modelling and rendering**, conceptualization, prompt development, and emerging AI tools for jewellery design and visualization.

Experienced in training learners in jewellery CAD workflows and guiding students through practical, industry-oriented design and modelling techniques.

CORE SKILLS

JEWELLERY CAD	Rhino • Matrix 9 • MatrixGold • 2D/3D Modelling • CAD from Sketches
DESIGN & RENDERING	Jewellery Rendering • Manual Design Interpretation • Concept Development
PRODUCTION	Production Workflow • Manufacturing • Technical Troubleshooting • 3D Printing
DIGITAL & R&D;	AI-Assisted Modelling • AI Rendering • Prompt Development • Design R&D;
AI TOOLS	Luma AI • Meshy AI • Tripo • Hi3D • Kling • Flow

PROFESSIONAL EXPERIENCE

Jewellery CAD Designer Faculty | J.K. Diamonds Institute of Gems & Jewellery, Mumbai

August 2023 – Present

- Teach jewellery CAD from basic to advanced levels using Rhino, Matrix, and MatrixGold.
- Train students in 2D/3D jewellery modelling, design development, CAD techniques, and industry-oriented workflows.
- Guide learners in jewellery market analysis, design trends, specifications, and practical design requirements.
- Interpret specifications and develop detailed jewellery models based on individual design requirements.
- Create and render 2D and 3D jewellery designs using Matrix and related CAD workflows.
- Review CAD work and provide technical guidance focused on design accuracy and production considerations.
- Guide students in converting manual sketches and concepts into detailed digital jewellery models.
- Contribute to development of design samples, learning material, and practical CAD exercises.
- Explore AI-assisted tools and workflows for jewellery modelling, visualization, rendering, and design development.

SELECTED PROJECTS & R&D;

AI-Assisted Jewellery Design & Rendering

Exploring Luma AI, Meshy AI, Tripo, Hi3D, Kling, and Flow for 3D modelling, conceptualization, realistic rendering, and visualization. Developing effective prompts and combining CAD models with AI-assisted visualization workflows.

3D Printing & Manufacturing R&D;

Working with 3D printing and manufacturing-oriented jewellery workflows, with a focus on creating smooth, clean model pieces and improving manufacturing readiness.

Jewellery CAD Design & Development

Working on jewellery design interpretation, CAD modelling, design development, rendering, and production-oriented model preparation based on sketches and product requirements.

Jewellery CAD Curriculum & Design R&D;

Contributing to the development of practical CAD learning content, jewellery design samples, modelling exercises, and technical aspects of jewellery CAD education.

CERTIFICATION

Certified Jewellery CAD Design Graduate — J.K. Diamonds Institute of Gems & Jewellery, Mumbai

Certification: Rhino & Matrix

ADDITIONAL EXPERIENCE

Freelance / Independent Jewellery CAD Design • CAD Training & Mentoring • Jewellery Production Support • Jewellery Design & Rendering • CAD / AI / Manufacturing R&D;
